SUMMARY

Full Stack Web Developer with a strong background in designing and building web applications using HTML, CSS, JavaScript, Node.js, React, and Next.js. Skilled in developing and deploying complex backend systems, web services, and databases. After transitioning from a 4-year teaching career to IT, I have developed quick learning abilities, adaptability, and strong communication skills. Proven ability to deliver high-quality software solutions that meet both technical and business requirements. View my portfolio at my portfolio at [link](#).

SKILLS

Programming Languages: JavaScript

Front-End Technologies: React, Redux-toolkit, React Query, styled-components, SASS, CSS modules, MUI, Tailwind CSS, Bootstrap

Back-End Technologies: Node.js, RESTful APIs, Express.js

Databases: SQL (MySQL, PostgreSQL, Supabase), NoSQL (MongoDB, Firebase)

Tools: Git (Version Control), GitHub, Swagger, Figma, Jira, Slack, Postman

Methodologies: Agile/Scrum methodologies

PROJECT

The Wild Oasis Website

Description: Developed a customer-facing website for The Wild Oasis, a boutique hotel. The site allows guests to explore cabins, make reservations, and manage their profiles, seamlessly syncing with the hotel's internal management system.

Technologies Used: Next.js, React Server Components, Supabase, NextAuth, Tailwind CSS, Context API.

Achievements/Results:

- Integrated real-time updates between the customer site and internal hotel management.
- Enabled guests to create profiles, view, update, and manage reservations.
- Developed a user-friendly booking system with a responsive, modern design.

WORK EXPERIENCE

Frontend Developer

Peaksoft House, Bishkek, Kyrgyzstan

Apr 2023 - Dec 2023

- Developed responsive web pages and admin panels using HTML, CSS, and JavaScript, including features like order tracking, user monitoring, and CRUD operations.
- Ensured code consistency by configuring ESLint and Prettier according to team conventions.
- Collaborated with UX/UI designers to implement design concepts into functional web applications.
- Managed version control with Git, tracking and documenting changes throughout development.
