SUMMARY

Junior Software Developer with a solid foundation in designing and building web applications using HTML, CSS, JavaScript, Node.js, React, and Next.js. Experienced in developing and deploying backend systems, web services, and databases. Quick learner with strong adaptability and communication skills. Proven ability to contribute to high-quality software solutions that meet technical and business needs. View my portfolio at this [link](#).

SKILLS

Programming: JavaScript, React, Redux-toolkit, React Query, styled-components, SASS, CSS modules, MUI, Tailwind CSS, Bootstrap, Node.js, RESTful APIs, Express.js, SQL (MySQL, PostgreSQL, Supabase), NoSQL (MongoDB, Firebase)
Tools: Git (Version Control), GitHub, Swagger, Figma, Jira, Slack, Postman, Agile/Scrum

PROJECT

The Wild Oasis Website

Description: Created a customer-facing website for The Wild Oasis hotel, featuring cabin exploration, reservations, and profile management, integrated with the hotel's management system.
Technologies Used: Next.js, React Server Components, Supabase, NextAuth, Tailwind CSS, Context API.
Achievements/Results:

- Enabled real-time updates between customer and internal systems.
- Facilitated profile creation and reservation management for guests.
- Designed a responsive and user-friendly booking system.

WORK EXPERIENCE

Frontend Developer

Peaksoft House, Bishkek, Kyrgyzstan
Apr 2023 - Dec 2023

- Developed responsive web pages and admin panels using HTML, CSS, and JavaScript, including features like order tracking, user monitoring, and CRUD operations.
- Ensured code consistency by configuring ESLint and Prettier according to team conventions.
- Collaborated with UX/UI designers to implement design concepts into functional web applications.
- Managed version control with Git, tracking and documenting changes throughout development.
